10th (Gujarat Secondary and Higher Secondary Education Board)	S.V.S. Modern Sankul, Surat	78.00	2018

PROJECTS

- Learning management system with RazorPay and Graphy**

(June-July'23)

Designed and developed a website to serve as a learning management system for a tech firm. Technologies used were HTML, CSS, Bootstrap, JS, Python. Website was hosted on Graphy and RazorPay is used as payment gateway.

- Django Rest Framework utility tool for financial analysis for a global logistics**

(June'23 -Present)

This tool serves a purpose of computing revenue, profits and loses against any of the three key pillars i.e., Driver, trips, vehicle. With support for authentication, permissions, and serialization, it's an excellent choice for managing APIs efficiently.

- Creating a Laravel-based Restaurant Management System**

(Dec'22 - April'23)

In proposed system user can search for a menu according to his choice and then can order. Using Laravel Framework, AJAX, MYSQL database for manipulation with data and using session and authentication management as well.
